## SPECIFICATIONS

- Threads comply with standard ISO228/1
- All threads are BSP Threads only
- Maximum working pressure 6 Bar
- Working temperature -30°C - 60 °C
- Body : Made of hot-pressed brass (Cu >57, Pb<0.3)
- O- Ring : NBR
- One size cap fits all Sizes

### 10307002 PERFORMANCE SPECS

- \* POWER SUPPLY: **12V** OR **24V**
- \* FLOW RATE: **57%** or **70€/MIN**
- \* DUTY CYCLE: **30 MINS**
- \* SELF-PRIMING, VOLUMETRIC, ROTATING VANE PUMP EQUIPED WITH BY-PASS VALVE
- \* 4 METER FUEL HOSE
- \* 1" MANUAL NOZZLE

	<p>AC FUEL TRANSFER PUMP E120</p> <p>Diesel transfer electric pump. Displacement, self-priming rotary electric vane pumps. Fitted with by-pass valve and elevated reliability seal even at low working temperatures. Compact and easy to install they are ideal for dispensers, fixed fuel transferring systems and other industrial applications. Sturdy cast iron structure, vane pump with sintered steel rotor and acetyl resin vanes, induction motor with aluminum casing. Suitable for continuous use with thermal motor overload protection.</p>	 <ul style="list-style-type: none"> <li>* Incorporated by-pass valve</li> <li>* Flow Rate: 100L/min</li> <li>* Single Phase motor: 230V/50Hz</li> <li>* Watt: 750watt</li> <li>* Fittings: 1" flanged connectors, external filter</li> <li>* Weight: 15.6kg</li> </ul>

RT71WS	3mm	100mm x 1950mm Long	

Whipcheck – safety slings are a positive safe – guard for hose connections. These strong steel cables prevent hose whip in case of accidental separation of coupling or clamp device. “Whipcheck” reaches across the hose fittings to provide stand-by safety for hose. Spring loaded loops in cable ends open easily to pass over the couplings for firm grip on hose, as shown. They have been thoroughly tested with years of service.

All materials used for in the manufacturing process conform to SABS & ISO standards, Materials being the cable, ferrules etc.

The RT25 & RT20 for use on hose sizes ½” to 1 ¼”. They are manufactured from 3mm galvanized steel wire rope.

It is designed to operate to a safe dead load of 400kgs.

The RT50 & RT51 for use on hose sizes 1 ½” to 2 ½”. They are manufactured from 4mm galvanized steel wire rope to a safe dead load of 1.2 tons.

These safety slings have been tested on a pull bench to breaking point.

3 samples at random were selected from the RT25 & RT20 and the RT50 & RT51 for this purpose. All three samples of each were pulled to destruction giving variation of 2kg maximum.
